

# ATHLETIC PERFORMANCE CENTER PROJECT 2016

**THE OBJECTIVE:** To privately raise funds to construct the new Athletic Performance Center (“APC”) at Follis Field, which will be attached to the west side of the new locker room facilities. The APC will be a brand new, state-of-the-art, strength, fitness, and conditioning facility.

**The New Locker Room Facilities:** The School Board has awarded a contract for the construction of new locker room facilities at the south entrance of Follis Field. This project will commence in October and construction will continue until this spring. The APC is a proposed addition to the new locker room facilities.

**The Cost of the APC:** \$500,000, which would include an updated, state-of-the-art facility. This project will also eliminate the safety concern of athletes crossing the street to use the current weight room and give safe access to all sports programs and physical education classes.

**The Deadline:** All funds must be raised by January 31, 2017 in order to ensure that construction can be continued by the contractor who is building the new locker room facilities.

**Who will raise the funds to complete the project?** The fundraising project and management will be conducted by a group of community members co-chaired by Dave Wigham and Duper Pallotta.

**Will taxpayer dollars be used in the project?** No. The project will be funded through individual and corporate donations.

**Benefits:** A new performance center will provide students with the optimal facility to maximize their strength, fitness and conditioning. This also allows The Dean Davis facility to be repurposed to house the middle school and high school wrestling program, sequentially freeing-up much needed court time at Edgewood.

# Wooster All-Sports Boosters Athletic Performance Center Project Donor Levels:

---

**Our Community Goal:  
To raise \$500,000 for a  
New Athletic Performance Center**
