*A Message to Wooster Families re: Bus Routes*

Good Evening. We continue to experience issues with our Transportation software that is making Infofinder (link used to search bus routes by address) inaccurate.

Students should plan to ride the same bus in the morning that they did today. If students in Grades 5-12 have questions regarding their afternoon route, that information will be available from their building principal tomorrow during the school day. Elementary parents with questions can call their child's school to receive the afternoon route information.

We apologize for this inconvenience.

It was great to see students again today in our schools! Have a great evening,

Gabe Tudor  
Superintendent  
Wooster City School District
