

January 15th Schedule Change

Wooster City School District had previously scheduled **January 15** as a district-wide professional development day. **January 15** has now changed to an in-session day for students.

We will continue with the Hybrid Learning schedule. Students in the Gold Cohort will learn in person, while students in the Blue Cohort will learn remotely.

Gold Cohort:

In-person learning

Blue Cohort:

Remote learning

Why the change?

The district believes it is in the best interest of our students and staff to maximize the number of face-to-face learning opportunities. Professional development days are also equally important and will be included when possible.
