

Wooster City School District Last Day of School for Students: **MAY 25**

This school year, the district used more than the four calamity days allocated by the Board of Education.

Typically, students would have to make up this extra day. Instead, the Board has voted to waive the make up for students. This means, the last day of school **is still May 25.**

All staff will still report on May 29 to take part in professional development for mental health services and supports, counseling and safety and security.
