Mental Health Resource Directory for Wayne/Holmes County Residents

Courtesy of Wooster Community Hospital

Introduction

This directory is meant to serve as a resource for professionals and the community as a whole. The intention of this directory is to serve as a useful tool to find mental health and substance abuse services. Included in this directory is a list of area resources for mental health treatment, substance abuse treatment, and support groups. While this directory is aimed towards residents of Wayne and Holmes counties it does have listings for treatment providers in Ashland and other counties. In certain situations, it may be necessary for Wayne/Holmes counties residents to travel outside of their counties to get access to certain services.

Effort has been made to present accurate and updated information for each service, however information is subject to change.

If there are any questions regarding the content of the directory or information which needs updated please call **Brandon Massullo, LPCC-S at 330-263-8711** or email **bmassullo@wchosp.org**

Disclaimer

Publication in this directory does not imply the endorsement of any providers of mental health or substance abuse services. Being listed as a resource again does not represent endorsement or certification of services, guarantee of safety, or promise of effectiveness by Wooster Community Hospital; nor is exclusion of a resource listing intentional. This directory is simply a referral tool.

How to use this Directory

The directory is broken down into two sections which includes Mental Health Resources and Substance Abuse Resources.

In the **Mental Health Section** the types of treatment covered are;

Traditional Outpatient- this is routine outpatient treatment which involves routine counseling sessions (50 minutes) with outpatient provider on average once every couple weeks.

Intensive Outpatient Treatment- this type of treatment involves more intensive mental health services than routine outpatient. Intensive treatment consists of 2 or more days a week of counseling services (usually groups) and typically interactions with psychiatrist weekly while enrolled in intensive program.

Psychiatry and Medication Management- this is a list of agencies and private practices which offer access to a psychiatrist. A psychiatrist is a physician who specializes in mental illness and has the ability to prescribe psychiatric medications.

Crisis Services- These are the local services which provide 24/7 access to counselors trained to treat and assess emergency mental health crisis situations such as individuals threatening to harm themselves or others.

Support Groups- A support group is a gathering of people who share a common health concern or interest. A support group usually focuses on a specific situation or condition, such as breast cancer, diabetes, heart disease, addiction or long-term caregiving. Support groups may be formed by a lay person with the condition or by someone interested in it, such as a family member. Not all support groups are facilitated by a licensed mental health professional.

In the **Substance Abuse Section** the types of treatment covered are;

Traditional/Group Outpatient- agencies that provide individual counseling as well as group therapy focused on substance abuse.

Medication Assisted Treatment- the use of FDA approved medication for the treatment of opiate/opioid addiction and substance abuse. Common medications used are Subutex, Soboxone® and Vivitrol®. Often times physicians prefer the patient to be currently enrolled in a substance abuse treatment program while being prescribed these medications.

Detox Treatment- Medical Detoxification is a process that systematically and safely withdraws people from addicting drugs, under the care of a physician in a hospital setting. Detox on average is 3-4 days.

Residential Treatment- provides substance abuse treatment in residential setting 24 hours a day, generally in non-hospital settings. This type of treatment can last anywhere from 2 weeks to 12 months depending on the program. These programs offered are referred to as Sober Living Houses or Half-Way houses.

SUPPORT GROUPS

What are Support Groups?

A support group is a gathering of people who share a common health concern or interest. A support group usually focuses on a specific situation or condition, such as breast cancer, diabetes, heart disease, addiction or long-term caregiving, for example.

Support groups are not the same as group therapy sessions. Support groups may be formed by a lay person with the condition or by someone interested in it, such as a family member. Not all support groups are facilitated by a licensed mental health professional. In some cases, support groups may be formed by nonprofit organizations, advocacy organizations, mental health clinics or other organizations.

Pages 37-42 are lists of support groups in the area.

Alzheimer Association Support Groups

(Please call our 24-hour Helpline — 1.800.272.3900 to check meetings)

Support groups are gatherings of caregivers and family members that meet on a monthly basis. Groups provide a consistent and caring place for members to discuss challenges of caregiving, share their feelings, give and receive mutual support, as well as exchange information and educate themselves about issues related to Alzheimer's disease. Staff or trained volunteers facilitate the discussion.

All of our groups offer the opportunity to:

- Connect with other families and caregivers who are dealing with the disease and reduce feelings of isolation.
- Develop a better understanding of Alzheimer's disease and the disease process.
- Share and learn practical suggestions for caring for a person with Alzheimer's disease and coping as a caregiver or family member.
- Express feelings, such as venting frustrations, anger, and disappointments, and share successes in a supportive setting.
- Vent frustrations, anger, and disappointments and share successes in a non-judgmental environment.
- Get encouragement and moral support.
- Learn about community resources and Association programs.

Life Care Hospice (Grief/Loss)

LifeCare Hospice offers a variety of support services to assist both hospice families and individuals in the community in their grief recovery. Please call the Bereavement Coordinator at Wooster office at 330.264.4899 for more details regarding times and information.

Support Groups

“Hope for the Journey” is our six-session grief education and support program for adults who have experienced loss.

Individual Counseling

Personal grief counseling services are available for individuals upon request.

Workshops

Workshops are offered throughout the year to help professionals better understand and respond to the needs of grieving people. The workshops target professionals, such as clergy, counselors, educators, school administrators, health care providers, business owners and managers.

Social Group

Individuals meeting at The Barn on the third Tuesday of each month at 4 PM to socialize and continue with their bereavement support services.

Preparing for the Holidays

Every year as the holidays approach, we offer a workshop that focuses on the anticipation and expectations which can make the holidays difficult for those who are grieving. We also invite the community to celebrate the holiday season by participating in the “Lights of Remembrance” project offered in various local communities.

NAMI Wayne and Holmes Counties

NAMI (National Alliance on Mental Illness) offers numerous educational and support groups for family members of persons with mental illness. They operate the MOCA House Recovery program which is a consumer-driven recovery center for consumers of mental services. The MOCA house program has free support groups, wellness recovery activities, and discussions. It is a great place to gain support and education by friendly and caring staff. Free transportation provided.

Please refer to their Facebook page or call NAMI directly at 330.264.1590 for the most up to date information. Below are a list of the free programming that NAMI and MOCA House program offers at 2525 Back Orrville Road, Wooster.

Depression & Bipolar Support Group (every Tuesday, 12pm)
Peer-based support group for people living with mood disorders.

NAMI Connection (Every Thursday, 1:00 pm)
Weekly recovery support groups for people living with mental illness

WRAP Workshop (April and October)
Six week wellness recovery action plan workshop. Participants with mental health challenges are taught how to list their personal resources, how to use those resources to develop their own action plans to use in specific situations.

WRAP Support Group (2nd and 4th Friday)
Open to anyone who completed the WRAP workshop and wishes to follow up with additional support

Writing for Wellness
(2nd and 3rd Thursday of each month, 5:30pm-7:00pm)
Explore poetry, short stories and fun exercises in written creativity.

NAMI Family Support Group
(1st Tuesday of each month, 6:30pm-8:00pm)
Peer support group for adult family members who have a relative with mental illness. Join families, like yours, to gain insight, information, and understanding.

People Affected by a Loved one's Suicide (PALS)
(4th Tuesday of each month, 5:30pm-7:00pm)
PALS is a support group offering encouragement and education to those who suffer from the loss of a loved one by suicide.

Warriors' Journey Home (1st and 3rd Sunday of each month, 6pm)
A healing circle to provide spiritual healing for veterans, their families and the community through education, support, forgiveness, healing, reconciliation, and initiation.

NAMI Wayne and Holmes Counties *(Continued)*

NAMI Family to Family (call for times)

12-week educational program taught by trained family members to share learning and practical insights for family members and friends of an individual with a mental illness. NAMI Family-to-Family is taught by NAMI-trained family members who have been there, and includes presentations, discussion and interactive exercises.

NAMI Basics (call for times)

NAMI Basics is a free, 6-week education program for parents and family caregivers of children and teens who are experiencing symptoms of a mental illness or whom have already been diagnosed. NAMI Basics is offered in a group setting so you can connect with other people face-to-face. You'll learn the facts about mental health conditions and how best to support your child at home, at school and when they're getting medical care. The course is taught by a trained team with lived experience—they know what you're going through because they've been there. The 6-session program provides critical strategies for taking care of your child and learning the ropes of recovery.

NAMI Peer to Peer (call for times)

NAMI Peer-to-Peer is a free, 10-session educational program for adults with mental illness who are looking to better understand their condition and journey toward recovery. Taught by a trained team of people who've been there, the program includes presentations, discussion and interactive exercises. Everything is confidential, and NAMI never recommends a specific medical therapy or treatment approach.

NAMI Peer-to-Peer helps you:

- Create a personalized relapse prevention plan
- Learn how to interact with health care providers
- Develop confidence for making decisions and reducing stress
- Stay up-to-date on mental health research
- Understand the impact of symptoms on your life
- Access practical resources on how to maintain your journey toward recovery

After Breast Surgery Support Group
