

ABOUT NUHOP

The Nuhop Center's main focus is a residential summer camp program called Camp Nuhop. Camp Nuhop is for children with learning disabilities, behavior disorders, and attention deficit disorders. Nuhop has been providing successful experience for children with Special Needs for over 30 years.

Although this is The Nuhop Center's main mission, The Nuhop Center provides the following additional services:

- Teacher Training (Ashland University Credit)
- Leadership, Sportsmanship & Team Development Training for Schools.
- Corporate Workshops

LOCATION & FACILITIES

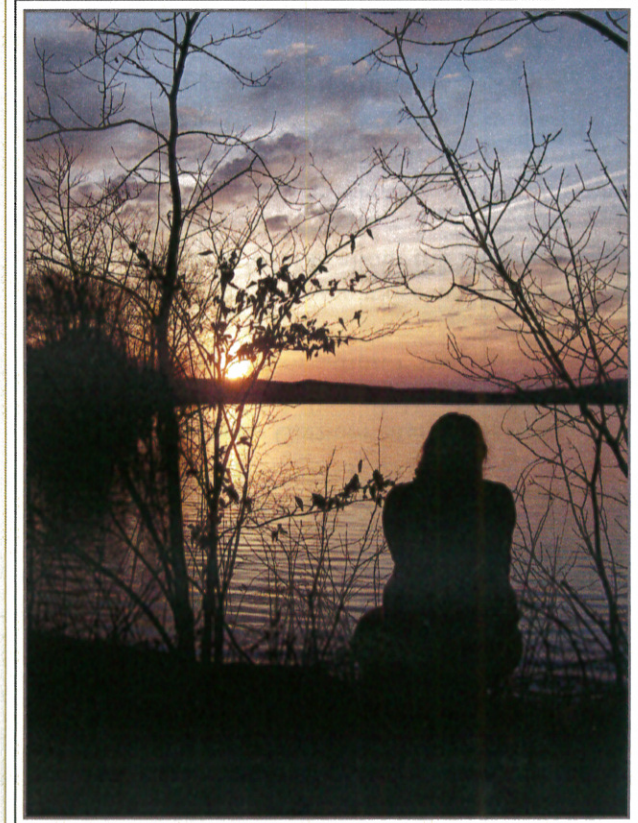

The Nuhop Center is located in the heart of The Mohican Valley. Nuhop has a private beach on the shore of Pleasant Hill Lake. Our facilities include a retreat center built in 2002.

We have eight renovated sleeping cabins, a ropes course and a activity cabin. All of our restroom facilities have been renovated in the past five years. Come discover why Nuhop's facility is the premiere camp and conference center in the heart of Ohio.

Nuhop Outdoor Education

OUR MISSION

To Provide a Safe, Nurturing, Dynamic Learning Environment where People are Empowered to Succeed!

OVERVIEW

Nuhop's Outdoor Education Program integrates grade level benchmarks and indicators into our curriculum. Our unique program provides an exceptional balance between experiential, outdoor, and environmental education philosophies.

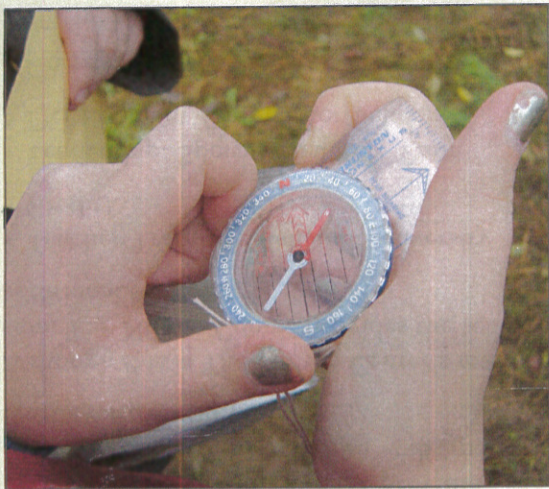

Nuhop strives to provide students with hands on learning experiences that augment what is learned in the classroom.

Examples of Classes:

- Compass/ GPS
- High Ropes
- Ecology
- Geology
- Weather
- Survival Skills
- Study Hikes (Cave, Stream Study)

NUHOP IS MORE THAN OUTDOOR EDUCATION

At Nuhop, students not only learn about the outdoors, they are challenged to learn about themselves and their peers through team building and self esteem raising activities. Each of our classes incorporates our mission into the curriculum in order to ensure success for each student attending Nuhop Outdoor Education.

CLASSES

Classes are designed to be hands-on and fun. Students may travel to caves to learn about geology, or become archeologists and dig up ancient artifacts. Classes may include learning outdoor skills such as shelter building and sensory awareness or be more science based according to what classes each school selects. Each program is designed to meet the unique objectives of each school served.

OUTCOMES

- Academic Content Standards are emphasized through hands on Outdoor Education Experiences
- Students become more aware and knowledgeable about the natural world.
- Encourages students to be responsible as they respect, care for and appreciate the environment and their peers.
- An increase in self-awareness and self-esteem.
- Common experiences that allow students to treat each other equally.
- Students actively engaged in the learning process.
